EDUCATION

The University of Sydney | Candidate for Master of Project Management **Aug 2023 – May 2025**

Relevant Coursework: Project Lifecycle Management, Cost Management, Risk Management, Professional Project Practice
Project Simulation: Participated in a project simulation and applied a risk assessment model to support optimization decisions.

Xianda College of Economics and Humanities, Shanghai International Studies University | B.A. in Exhibition Economy and Management **Sep 2018 – Jun 2022**

Relevant Coursework: Data Analysis, Statistics, Marketing, Communication Studies
GPA: 3.4/4.0 | Second-Class Scholarship

PROJECT EXPERIENCE

AI Portfolio Website Project: From Concept to Launch **2026**

- Built a personal portfolio website from 0 to 1 with AI tools, exploring a more digital and interactive way to present professional experience.
- Managed tool selection, page design, content organization, document integration, and deployment, integrating bilingual content, resume files, portfolio materials, and external documents.
- Resolved practical issues including image upload, document linking, and external resource integration, gradually forming an AI workflow covering planning, generation, debugging, and iteration.
- Delivered a personal website with 5 core features: bilingual switching, voice greeting, multiple resume downloads, portfolio navigation, and document navigation.

Australian Eye Hospital Website Experience Upgrade | University Collaboration Project **Aug 2024 – Dec 2024**

- Mapped key user journeys across appointment booking, login, information access, and backend dashboards, identifying issues affecting task completion and producing optimization recommendations.
- Combined surveys, user feedback, and page flow walkthroughs to diagnose problems; found that 28.6% of users faced barriers at the appointment entry point, 20% were dissatisfied with system response speed, and 28.6% were unwilling to recommend the website.
- Distinguished blocking issues such as login failure, expired verification links, post-booking 404 errors, and Dashboard navigation errors from experience issues such as unclear search visibility, overly technical content, and slow response speed.
- Incorporated staff-side research and found that 50%+ of employees felt confused when reviewing patient profile pages, leading to recommendations for role-based workspaces, shortcut entries, and clearer feature structures.

INTERNSHIP EXPERIENCE

RallyVille Financial Company, Australia | Marketing Operations Assistant **Aug 2024 – Nov 2024**

- Participated in content planning and graphic content production for a financial education account; supported a four-person team in lowering the comprehension barrier of financial content through storytelling and launched the series "An Intern Navigating a Finance Company," contributing to a 30% increase in views and interactions.
- Simplified complex financial terminology for beginner audiences and optimized graphic and short-video content to improve readability and communication effectiveness.
- Supported front-end lead generation by using graphic posts and short videos to reach potential customers and guide them into community channels for later user retention and conversion support.
- Edited long-form expert videos into topic-driven short videos of around 1.5 minutes and built a three-posts-per-week collaboration mechanism; used Gantt charts to break down expert video production tasks and coordinate multi-role delivery milestones.

The Estée Lauder Companies | Marketing Intern **Nov 2023 – Jan 2024**

- Conducted competitor analysis across 10+ domestic and international beauty brands, covering industry trends, product positioning, pricing structures, channel strategies, and seasonal marketing campaigns.
- Built consumer profiles based on premium beauty consumer characteristics, generational differences, and purchase journeys; analyzed 2,000+ feedback items with cross-data analysis to identify customer preferences and decision logic.
- Researched traffic distribution, ad recommendation logic, and interest-driven e-commerce conversion paths across Taobao, Douyin, Xiaohongshu, and WeChat Mini Programs; applied SWOT analysis to Douyin e-commerce and WeChat Mini Programs to summarize platform marketing approaches and user preferences from successful cases.
- Independently produced 10+ research documents, including user profiles, competitor analysis, platform marketing analysis, mini-program journey analysis, and CRM case studies to support digital marketing and campaign planning.

Shanghai TV — China Business Network | Event Intern **Jun 2021 – Sep 2021**

- Supported early-stage planning for the "China's Most Beautiful Villages and Towns" selection project; helped develop a standardized communication SOP and coordinated with multiple government, corporate, and partner stakeholders, improving communication efficiency by 30%.
- Supported event execution by assisting with on-site flow control, equipment testing, requirement coordination, and resource alignment to ensure smooth delivery.
- Operated the project WeChat official account, organized 500+ village and town profiles into accessible public-facing introductions, published 10+ articles, gained 10,000+ reads and 300+ comments, and contributed to a 15% follower growth during the operation period.
